# Memorandum to the City of Markham Committee of Adjustment January 26, 2022

File:	A/128/21
Address:	8 Jonquil Crescent – Markham, ON
Applicant:	Meng Cui
Agent:	Custom CADD Inc. (Philippe Lamadeleine)
Hearing Date:	February 2, 2022

The following comments are provided on behalf of the East District team. The applicant is requesting relief from the following "Residential One – (R1)" zone requirements under Bylaw 1229, as amended, as they relate to a new two-storey detached dwelling. The variances requested are to permit:

a) <u>By-law 99-90, Table C (b):</u>

a maximum depth of 24.35 m (79.89 ft), whereas the By-law permits a maximum depth of 16.80 m (55.12 ft); and

# b) <u>By-law 99-90, Table C (d):</u>

a maximum floor area ratio of 49.0%, whereas the By-law permits a maximum floor area ratio of 45.0%.

# BACKGROUND

This application was deferred sine die by the Committee of Adjustment (the "Committee") on November 24, 2021 in order to give the applicant time to address concerns noted in the Minutes Extract (Appendix "D"). The initial variances requested are identified in the Staff Report dated November 15, 2021 (Appendix "C").

## COMMENTS

The applicant submitted revised drawings on December 3, 2021, which maintains two of the previous variances as they relate to requests to increase the maximum building depth, and maximum floor area ratio. The applicant is no longer requesting an increase to the maximum height.

The new two-storey detached dwelling would have a first floor area of 233.60 m<sup>2</sup> (2,515.0 ft<sup>2</sup>), a second floor area of 182.60 m<sup>2</sup> (1,965.0 ft<sup>2</sup>) for a total gross floor area of 416.20 m<sup>2</sup> (4,480.0 ft<sup>2</sup>). This is a minor increase in interior floor area from the previously proposed dwelling, which had a total gross floor area of 414.76 m<sup>2</sup> (4,464.48 ft<sup>2</sup>). Staff note that the building footprint remains the same as initially proposed, and staff's initial comments with respect to the requested variances remain applicable. With exception to the requested building depth, the proposed development meets all other zoning provisions that establish the prescribed building envelope, and staff are of the opinion that the proposed development meets the four tests under the *Planning Act, R.S.O. 1990, c. P.13, as amended*.

# ZONING PRELIMINARY REVIEW (ZPR) NOT UNDERTAKEN

The applicant has not completed a new ZPR for the revised drawings. It is the applicant's responsibility to ensure that the application has accurately identified all of the variance to the By-law required for the proposed development. If the variances requested in this application contains errors, or if the need for additional variance(s) are identified at the

building permit stage, further variance application(s) may be required to address the noncompliance.

#### PUBLIC INPUT SUMMARY

No new written submissions were received as of January 26, 2022. It is noted that additional information may be received after the writing of this report, and the Secretary-Treasurer will provide information on this at the meeting.

#### CONCLUSION

Planning staff have reviewed the application with respect to Section 45(1) of the *Planning Act*, and remain of the opinion that the variance requests meet the four tests. Staff recommend that the Committee consider public input and the subsequent conditions of approval in reaching a decision. The onus is ultimately on the applicant to demonstrate how they satisfy the tests of the *Planning Act* required for the granting of minor variances.

## APPENDICES

Appendix "A" – Conditions of Approval Appendix "B" – Plans Appendix "C" – Staff Report: November 15, 2021 Appendix "D" – Minutes Extract: November 24, 2021

PREPARED BY:

Aleks Todorovski, Planner, Zoning and Special Projects

**REVIEWED BY:** 

Stacia Muradali, Development Manager, East District

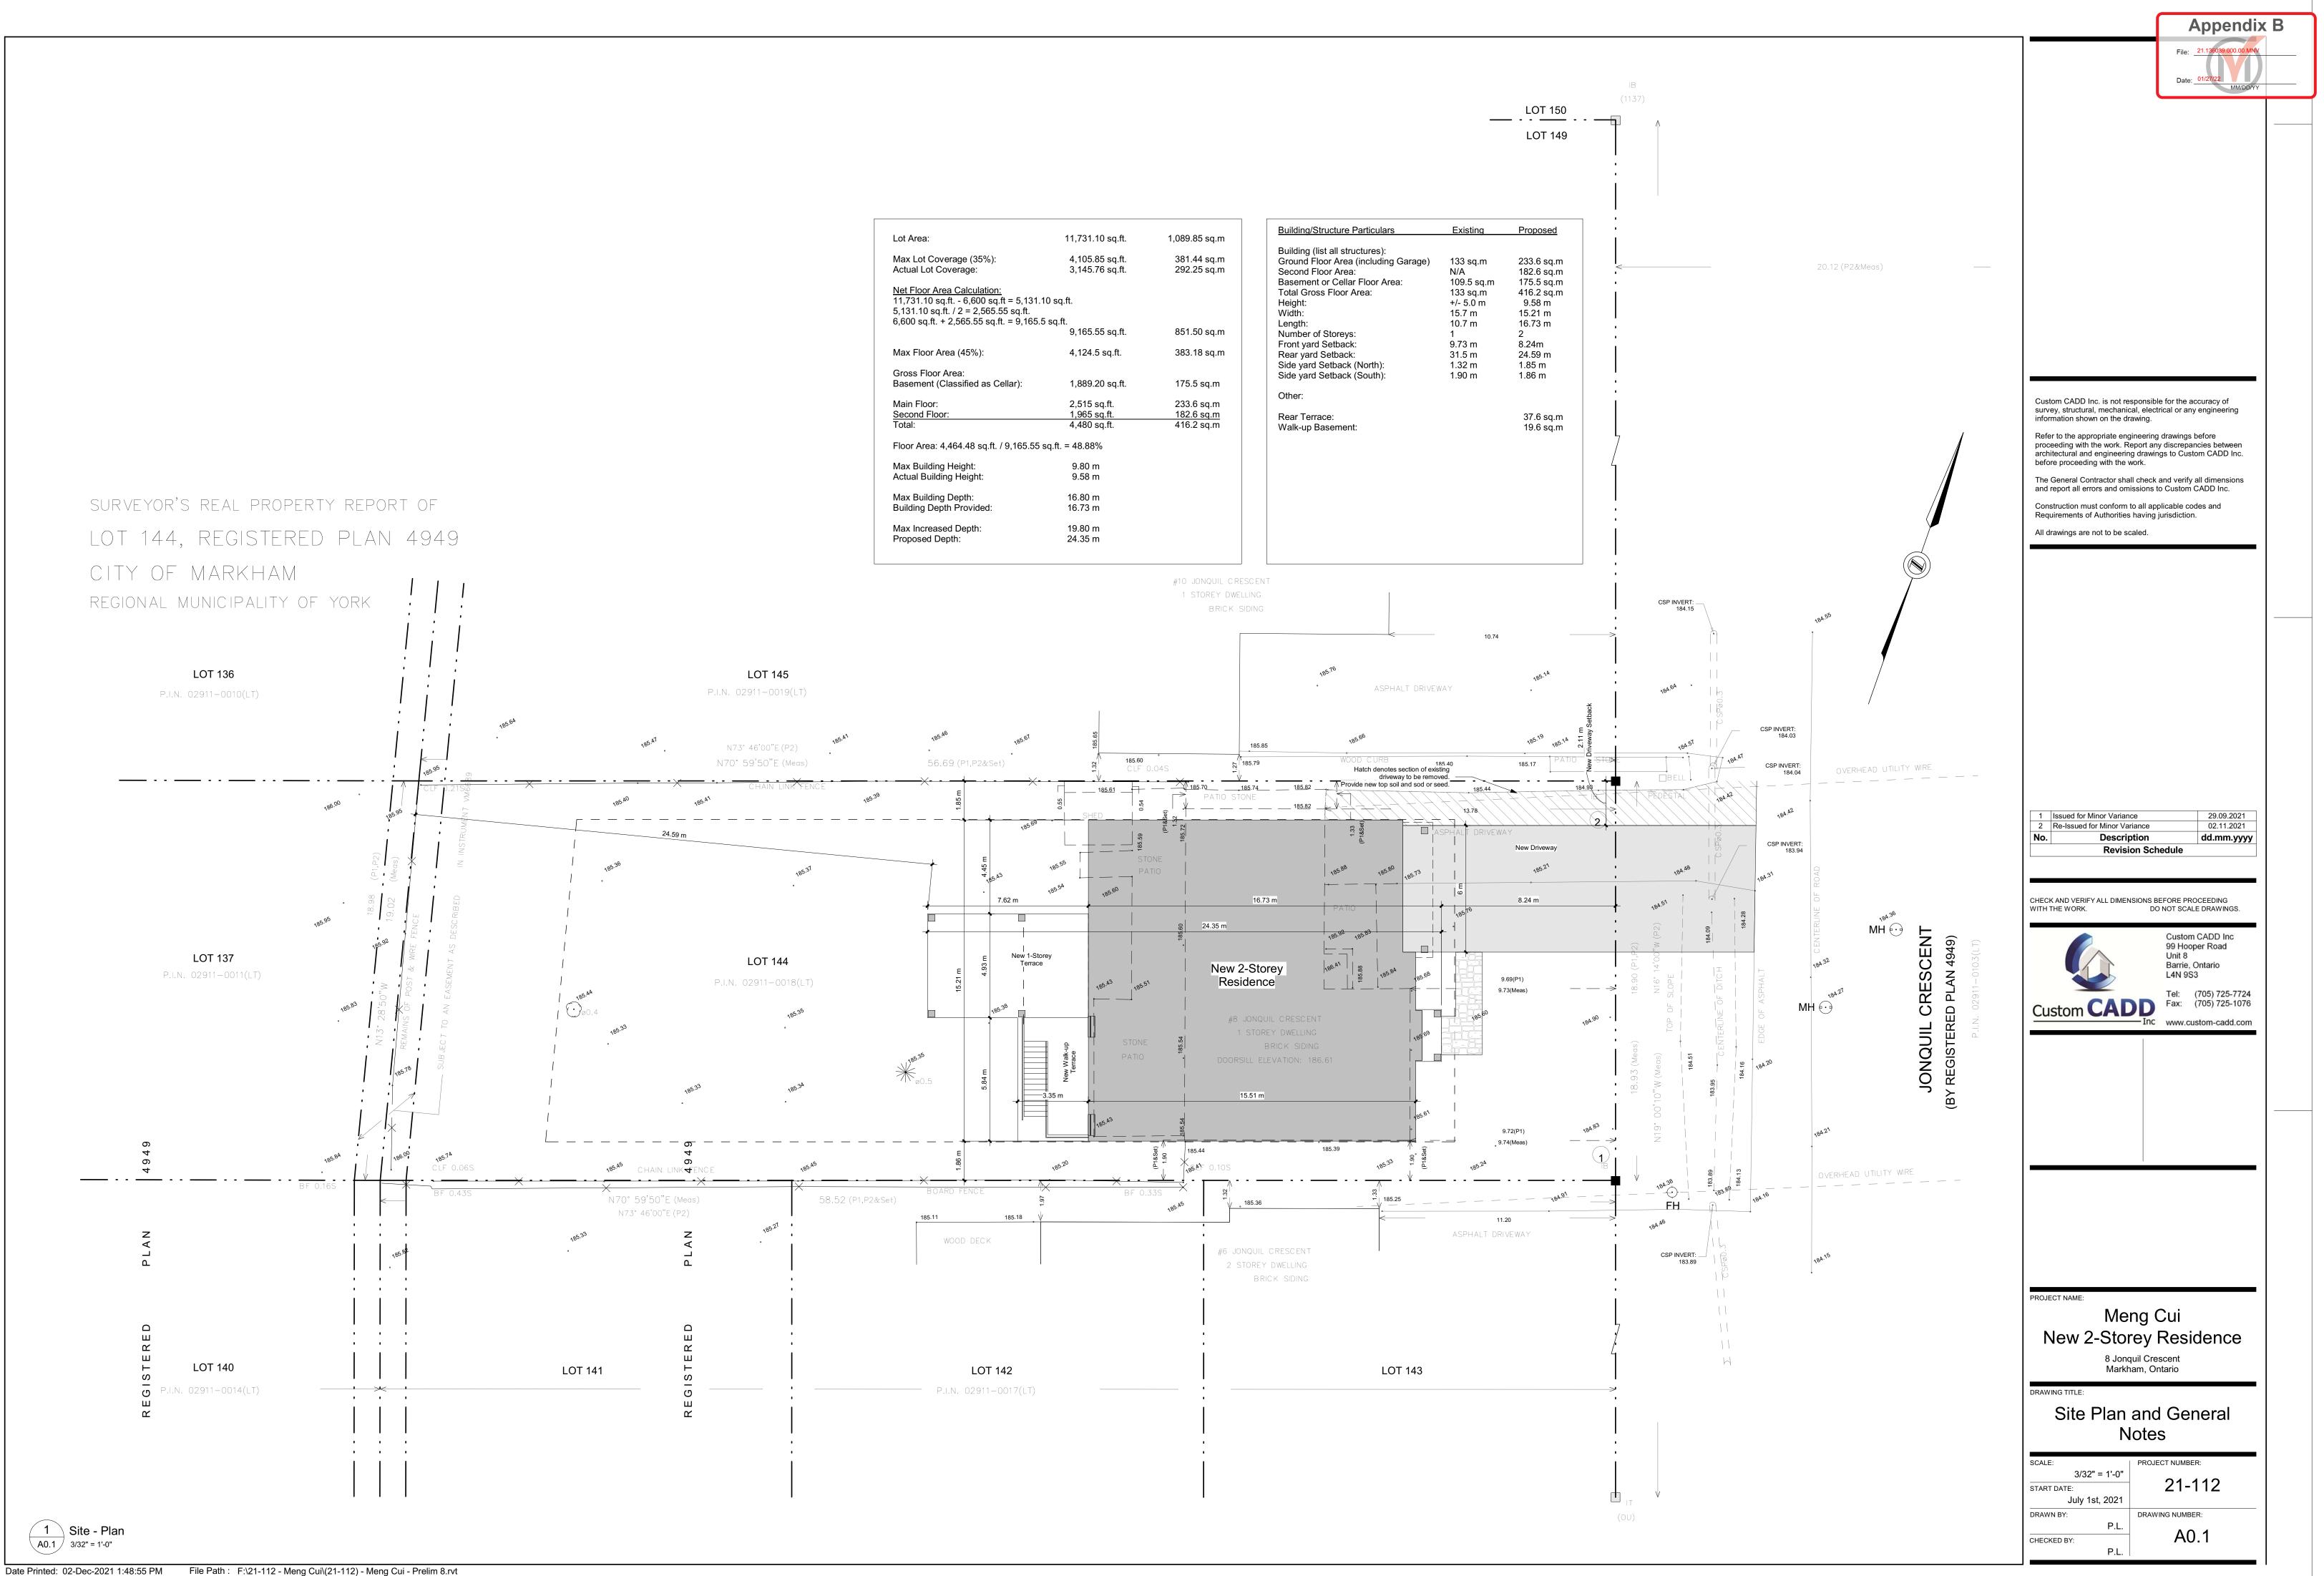

## APPENDIX "A" CONDITIONS TO BE ATTACHED TO ANY APPROVAL OF FILE A/128/21

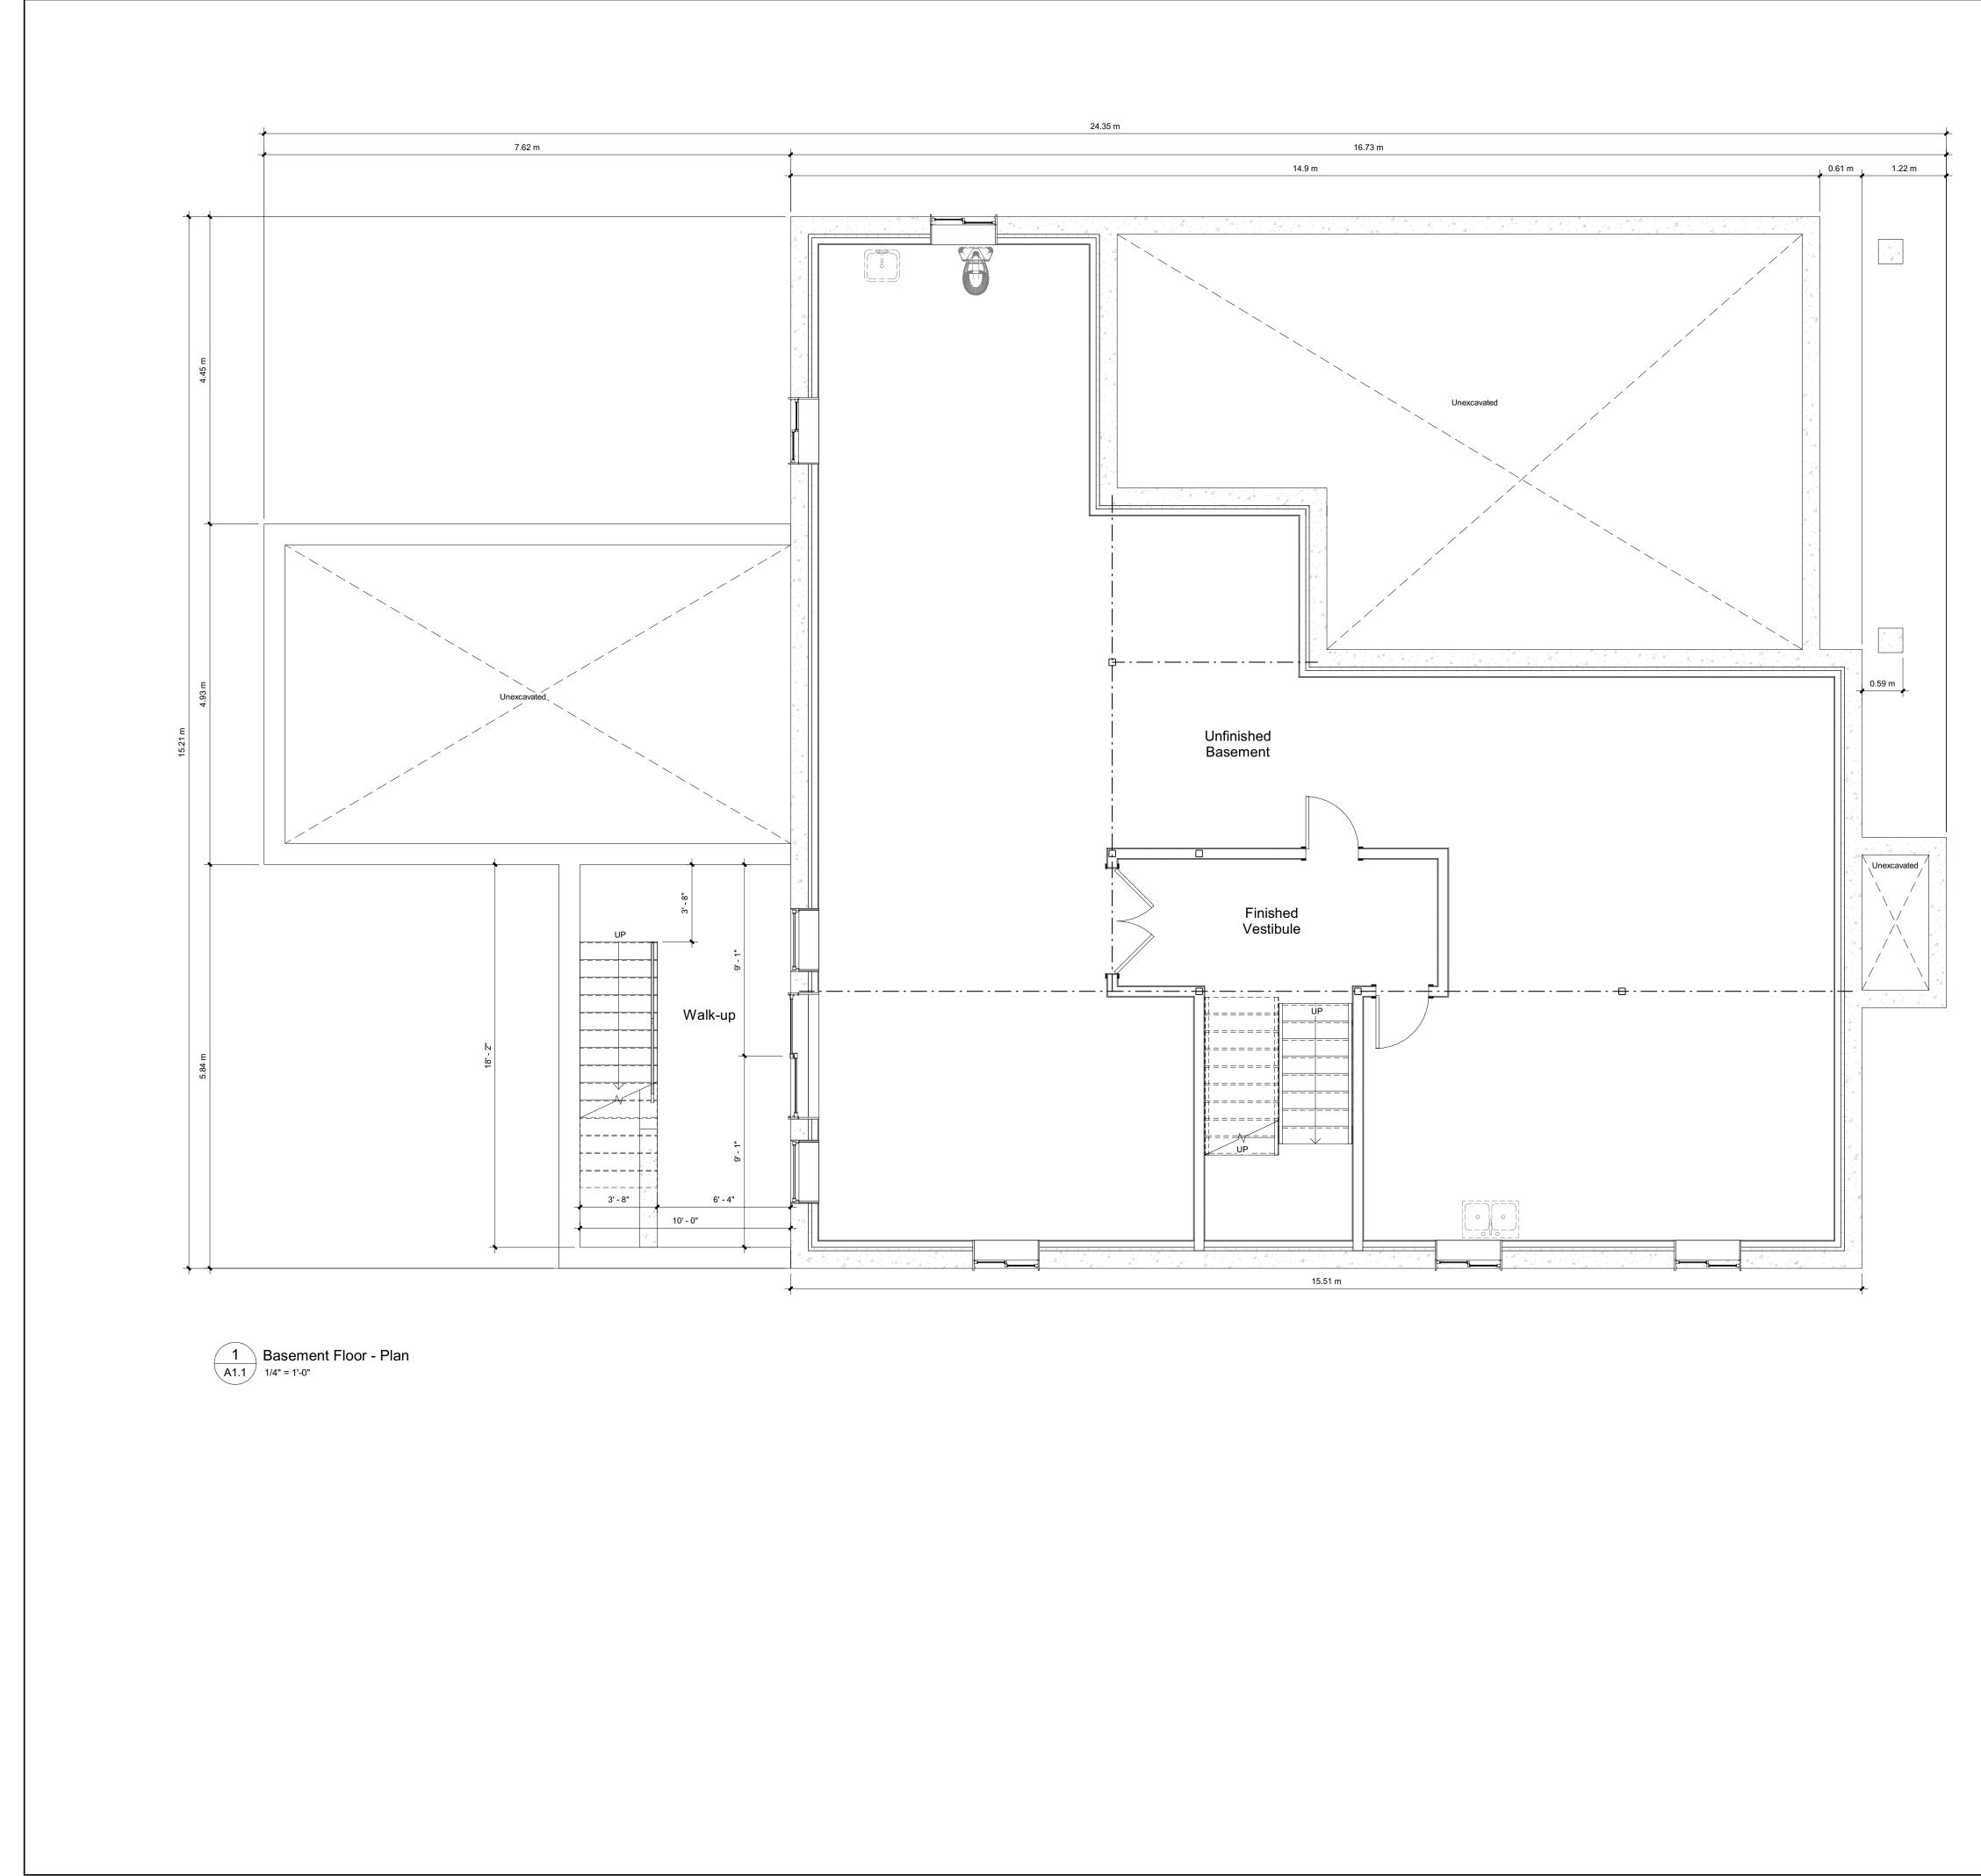

- 1. The variances apply only to the proposed development for as long as it remains.
- 2. That the variances apply only to the proposed development, in substantial conformity with the plans attached as Appendix "B" to this Staff Report, and that the Secretary-Treasurer receive written confirmation from the Director of Planning and Urban Design or designate that this condition has been fulfilled to his or her satisfaction.
- 3. Submission of a Tree Assessment and Preservation Plan, prepared by a qualified arborist in accordance with the City's Streetscape Manual (2009), as amended, to be reviewed and approved by the Director of Planning and Urban Design, or their designate, and that the Secretary-Treasurer receive written confirmation that this condition has been fulfilled to the satisfaction of the Director of Planning and Urban Design, or their Design, or their designate.
- 4. That tree replacements be provided and/or tree replacement fees be paid to the Director of Planning and Urban Design, or their designate, if required, in accordance with the Tree Assessment and Preservation Plan, and that the Secretary-Treasurer receive written confirmation that this condition has been fulfilled to the satisfaction of the Director of Planning and Urban Design, or their designate.
- 5. That prior to the commencement of construction or demolition, tree protection be erected and maintained around all trees on site, including street trees, in accordance with the City's Streetscape Manual (2009), as amended, and inspected by the Tree Preservation Technician, or their designate, and that the Secretary-Treasurer receive written confirmation that this condition has been fulfilled to the satisfaction of the Director of Planning and Urban Design, or their designate.

APPENDIX "C" STAFF REPORT: NOVEMBER 15, 2021

# Memorandum to the City of Markham Committee of Adjustment November 15, 2021

File:	A/128/21
Address:	8 Jonquil Crescent – Markham, ON
Applicant:	Meng Cui
Agent:	Custom CADD Inc. (Philippe Lamadeleine)
Hearing Date:	November 24, 2021

The following comments are provided on behalf of the East District team. The applicant is requesting relief from the following "Residential One – (R1)" zone requirements under Bylaw 1229, as amended, as they relate to a new two-storey detached dwelling. The variances requested are to permit:

a) <u>By-law 99-90, Table C (b):</u>

a maximum depth of 24.35 m (79.89 ft), whereas the By-law permits a maximum depth of 16.80 m (55.12 ft); and

b) By-law 99-90, Section 1.2 (I):

a maximum height of 11.10 m (36.42 ft), whereas the By-law permits a maximum height of 9.80 m (32.15 ft).

c) <u>By-law 99-90, Table C (d):</u>

a maximum floor area ratio of 49.0%, whereas the By-law permits a maximum floor area ratio of 45.0%;

# BACKGROUND

## **Property Description**

The 1,089.86 m<sup>2</sup> (11,731.10 ft<sup>2</sup>) subject property is located on the west side of Jonquil Crescent, north of Highway 7 East, east of Galsworthy Drive, and south of Robinson Street. The property is currently developed with a one-storey single detached dwelling, with mature trees located in the rear yard. The property is located within an established residential neighbourhood comprised of a mix of one and two-storey detached and semi-detached dwellings. There are several examples of newer infill development along the street, and within the surrounding area.

# Proposal

The applicant is proposing to demolish the existing one-storey dwelling, to construct a new two-storey dwelling with an attached garage, and front and rear covered porches. Including the garage, the dwelling would have a ground floor area of 232.89 m<sup>2</sup> (2,506.83 ft<sup>2</sup>), a second floor area of 181.87 m<sup>2</sup> (1,957.65 ft<sup>2</sup>) for a total gross floor area of 414.76 m<sup>2</sup> (4,464.48 ft<sup>2</sup>).

## **Official Plan and Zoning**

<u>Official Plan 2014 (partially approved on November 24/17, and updated on April 9/18)</u> The subject property is designated "Residential Low Rise", which provides for low rise housing forms including single detached dwellings. Section 8.2.3.5 of the Official Plan outlines infill development criteria for the "Residential Low Rise" designation with respect to height, massing, and setbacks. This criteria is established to ensure that infill development is appropriate for the site and generally consistent with the zoning requirements for adjacent properties and properties along the same street, while accommodating a diversity of building styles. In considering applications for development approval in a "Residential Low Rise" area, which includes variances, development is required to meet the general intent of these development criteria. Regard shall also be had for the retention of existing trees and vegetation.

#### Zoning By-Law 1229

The subject property is zoned "Residential One (R1)" under By-law 1229, as amended, which permits one single detached dwelling per lot.

## Residential Infill Zoning By-law 99-90

The subject property is also subject to the Residential Infill Zoning By-law 99-90. The intent of this By-law is to ensure the built form of new residential construction will maintain the character of existing neighbourhoods. It specifies development standards for building depth, garage projection, garage width, floor area ratio, height, and number of storeys. The proposed development does not comply with the Infill By-law requirements with respect to the maximum depth, maximum height, and maximum floor area ratio.

## Zoning Preliminary Review (ZPR) Undertaken

The applicant completed a ZPR on October 19, 2021 to confirm the variances required for the proposed development.

## COMMENTS

The *Planning Act*, *R.S.O. 1990, c. P.13, as amended*, states that four tests must be met in order for a variance to be granted by the Committee of Adjustment ("the Committee"):

- a) The variance must be minor in nature;
- b) The variance must be desirable, in the opinion of the Committee, for the appropriate development or use of land, building or structure;
- c) The general intent and purpose of the Zoning By-law must be maintained;
- d) The general intent and purpose of the Official Plan must be maintained.

#### Increase in Maximum Building Depth

The applicant is requesting a maximum building depth of 24.35 m (79.89 ft), whereas the By-law permits a maximum building depth of 16.80 m (55.12 ft). This is an increase of 7.55 m (24.77 ft).

Building depth is measured based on the shortest distance between two lines, both parallel to the front lot line, one passing through the point on the dwelling which is the nearest and the other through the point on the dwelling which is the farthest from the front lot line.

The variance includes front and rear covered porches that are one-storey in height. Cumulatively, the covered porches add approximately 8.75 m (28.71 ft) to the overall building depth. Excluding the covered porches, the main component of the building has a depth of 15.51 m (50.89 ft) which would meet the maximum building depth. Staff are of the opinion that the requested extension to the maximum building depth is attributable to the covered porches, which are oriented towards the centre of the lot, and would not adversely impact neighbouring lots.

### Increase in Maximum Building Height

The applicant is requesting relief to permit a maximum building height of 11.10 m (36.42 ft), whereas the By-law permits a maximum building height of 9.80 m (32.15 ft). This is an increase of 1.30 m (4.27 ft).

The By-law calculates building height using the vertical distance of building or structure measured between the level of the crown of the street and the highest point of the ridge of a gable, hip, gambrel or other type of pitched roof.

Measured from the crown of the road: the top of roof has a height of 11.10 m (36.42 ft), which does not span across the entire roofline; stepped down, the lower ridge of the roof has a height of 10.49 m (34.41 ft). Staff have given consideration to the grade at the front of the house, which is approximately 1.36 m (4.46 ft) above the crown of the street at the mid-point, the balance of which the applicant is seeking relief to permit an increase in height. Therefore, the height of the building from grade at the mid-point of the property to the high point of the roof is approximately 9.77 m (32.05 ft). Staff are of the opinion that the variance maintains the general intent of the By-law, is an appropriate development for the lot, and is minor in nature.

#### Increase in Maximum Floor Area Ratio

The applicant is requesting a maximum floor area ratio of 49.0%, whereas the By-law permits a maximum floor area ratio of 45.0%. The variance will facilitate the construction of a two-storey detached dwelling with a floor area of 414.76 m<sup>2</sup> (4,464.48 ft<sup>2</sup>), whereas the By-law permits a dwelling with a maximum floor area of 383.18 m<sup>2</sup> (4,124.50 ft<sup>2</sup>). This is an increase of 31.59 m<sup>2</sup> (339.98 ft<sup>2</sup>).

Floor area ratio is a measure of the interior square footage of the dwelling as a percentage of the net lot area; however, it is not a definitive measure of the mass of the dwelling. With exception to the requested building depth, and building height, the proposed development meets all other zoning provisions that establish the prescribed building envelope which assist in ensuring that the dwelling will be in keeping with the intended scale of residential infill development for the neighbourhood, and street. Staff are of the opinion that the proposed development is compatible, and generally in keeping with the scale of dwellings along Jonquil Crescent.

#### Tree Protection and Compensation

Should the application be approved, staff recommend that the tree related conditions detailed in Appendix "A" be adopted to ensure that the applicant installs the appropriate tree protection barriers, and provides appropriate compensation, if necessary. Staff also note that the applicant is required to apply for and obtain a tree permit from the City for any proposed injury to, or removal of any trees that have a diameter at breast height (DBH) of 20.0 cm (7.87 in), or more on the subject property or neighbouring properties. Further mitigation may be required to ensure the appropriate protection of certain trees is achieved.

#### PUBLIC INPUT SUMMARY

No written submissions were received as of November 15, 2021. It is noted that additional information may be received after the writing of this report, and the Secretary-Treasurer will provide information on this at the meeting.

#### CONCLUSION

Planning staff have reviewed the application with respect to Section 45(1) of the *Planning Act*, and are of the opinion that the variance request meets the four tests. Staff recommend that the Committee consider public input and the conditions of approval attached as Appendix "A" in reaching a decision. The onus is ultimately on the applicant to demonstrate how they satisfy the tests of the *Planning Act* required for the granting of minor variances.

## APPENDICES

Appendix "A" – Conditions of Approval Appendix "B" – Plans

PREPARED BY:

Aleks Todorovski, Planner, Zoning and Special Projects

**REVIEWED BY:** 

Stacia Muradali, Development Manager, East District

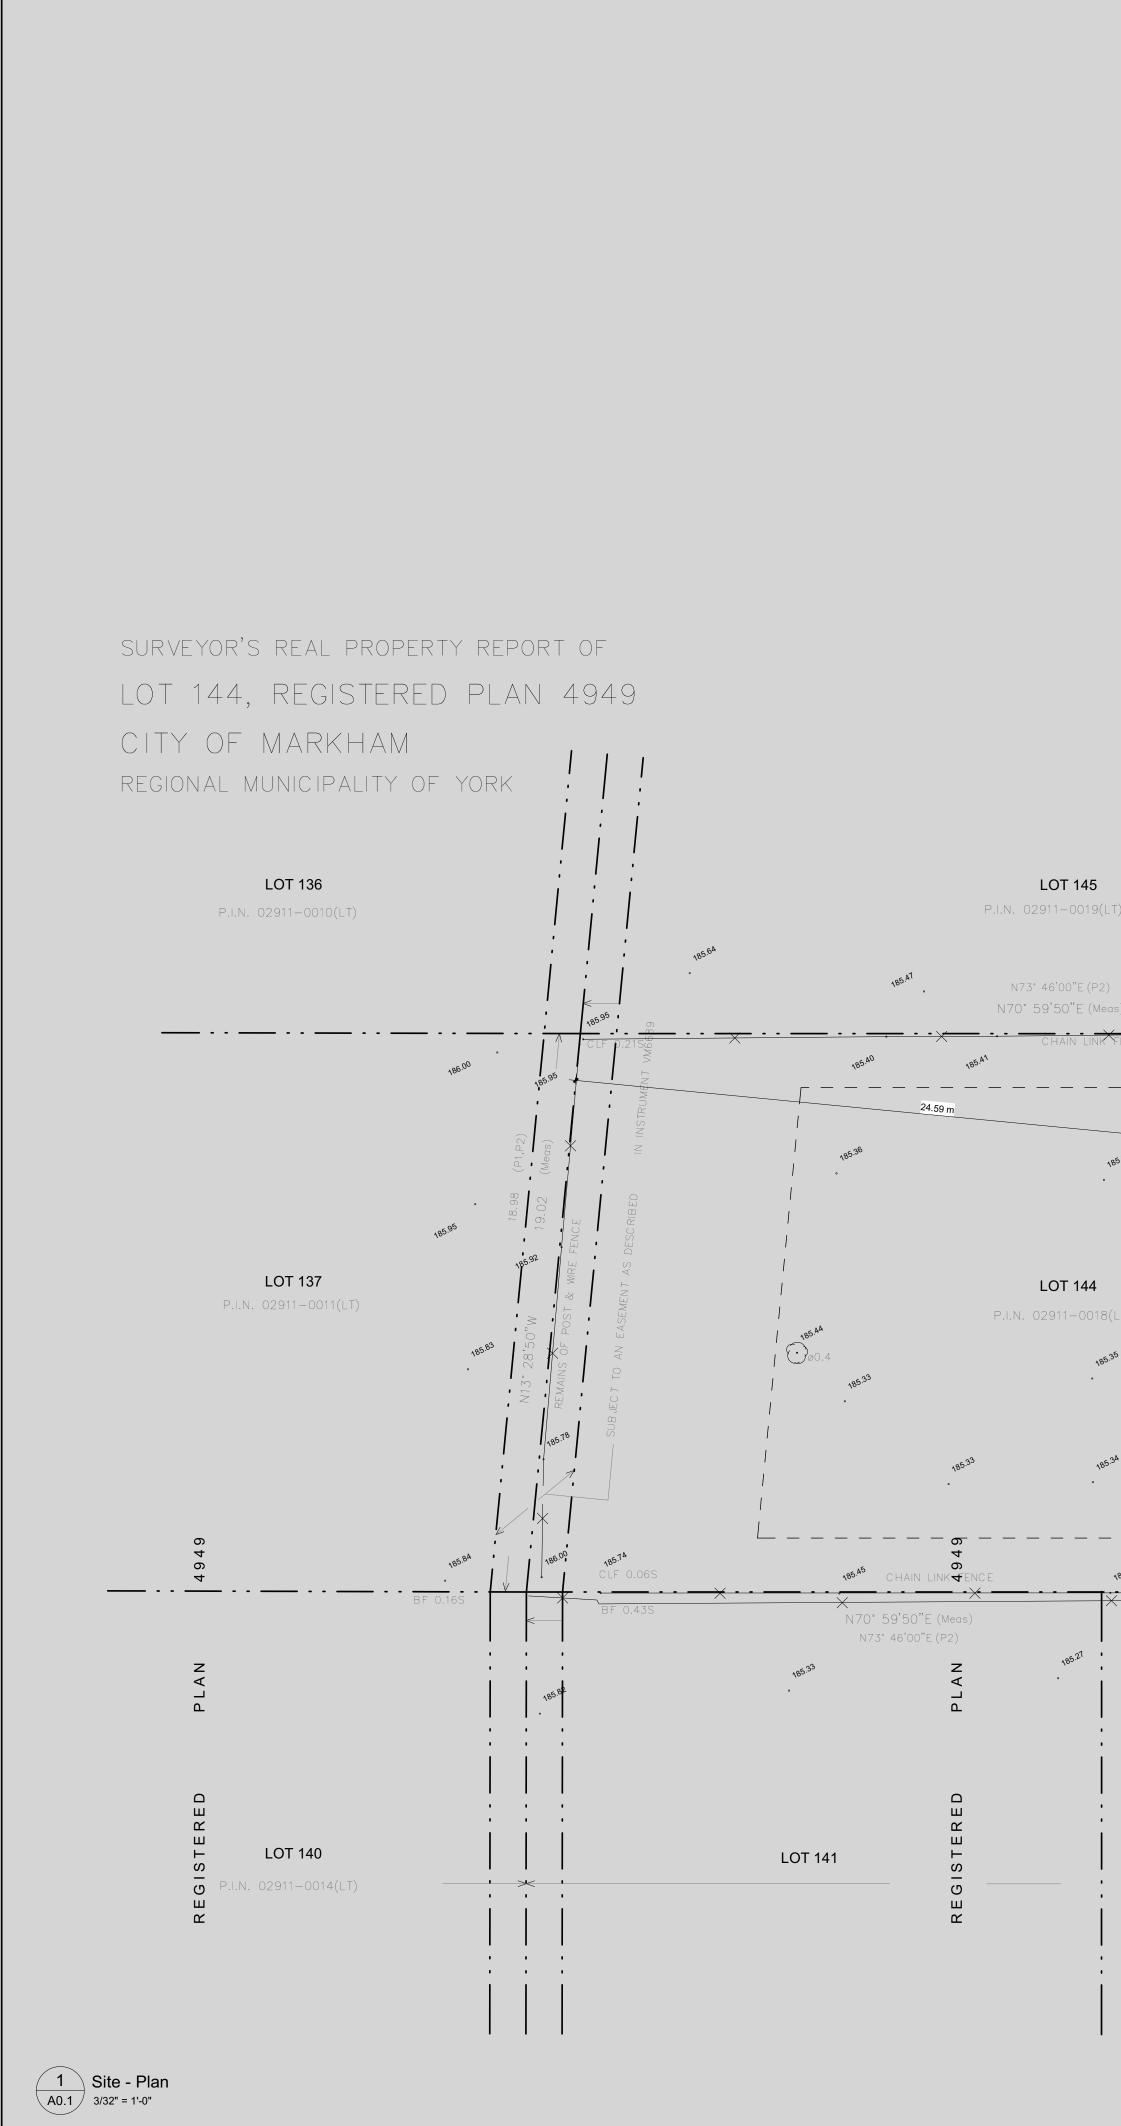

# APPENDIX "A" CONDITIONS TO BE ATTACHED TO ANY APPROVAL OF FILE A/128/21

- 1. The variances apply only to the proposed development for as long as it remains.
- 2. That the variances apply only to the subject development, in substantial conformity with the plans attached as Appendix "B" to this Staff Report, and that the Secretary-Treasurer receive written confirmation from the Director of Planning and Urban Design or designate that this condition has been fulfilled to his or her satisfaction.
- 3. Submission of a Tree Assessment and Preservation Plan, prepared by a qualified arborist in accordance with the City's Streetscape Manual (2009), as amended, to be reviewed and approved by the Director of Planning and Urban Design, or their designate, and that the Secretary-Treasurer receive written confirmation that this condition has been fulfilled to the satisfaction of the Director of Planning and Urban Design, or their designate.
- 4. That tree replacements be provided and/or tree replacement fees be paid to the Director of Planning and Urban Design, or their designate, if required, in accordance with the Tree Assessment and Preservation Plan, and that the Secretary-Treasurer receive written confirmation that this condition has been fulfilled to the satisfaction of the Director of Planning and Urban Design, or their designate.
- 5. That prior to the commencement of construction or demolition, tree protection be erected and maintained around all trees on site, including street trees, in accordance with the City's Streetscape Manual (2009), as amended, and inspected by the Tree Preservation Technician, or their designate, and that the Secretary-Treasurer receive written confirmation that this condition has been fulfilled to the satisfaction of the Director of Planning and Urban Design, or their designate.

APPENDIX "D" MINUTES EXTRACT: NOVEMBER 24, 2021

# **Resolution Carried**

# 4. A/128/21

# Owner Name: Meng Cui Agent Name: Custom CADD Inc (Philippe Lamadeleine) 8 Jonquil Crescent, Markham PLAN 4949 LOT 144

The applicant is requesting relief from the requirements of By-law 1229 as amended to permit:

- a) By-law 99-90, Table C (d):
   a maximum net floor area ratio of 49.0 percent, whereas the By-law permits a maximum net floor area ratio of 45.0 percent;
- b) By-law 99-90, Table C (b): a maximum building depth of 24.35 m, whereas the By-law permits a maximum building depth of 16.80 m;
- c) By-law 99-90, Section 1.2 (I): a maximum building height of 11.10 m, whereas the By-law permits a maximum building height of 9.80 m;

as it relates to a proposed detached dwelling. (East District, Ward 4)

The Secretary-Treasurer introduced the application.

The agent Philippe Lamadeleine appeared on behalf of the application.

Elizabeth Brown of 65 Lincoln Green Drive spoke in opposition of the application. She is concerned about the net floor area ratio. She states the open to below for this proposed house should be reduced.

Mr. Lamadeleine then provided photograph study of other in-fill houses of the neighbourhood.

Committee member Jeamie Reingold raised issues about compatibility in neighbourhood for this proposal.

The Chair raised issues about the massing here. He believed the front elevation could be revised.

Mr. Lamadeleine indicated they could look at reducing the roof height.

Committee of Adjustment Minutes Wednesday, November 24, 2021

# Moved By: Tom Gutfreund Seconded By: Patrick Sampson

THAT Application No A/128/21 be deferred sine die.

**Resolution Carried** 

# 5. A/143/21

Owner Name: Chitravel Velayutham Agent Name: KBK Studios Inc. (Kyle Khadra) 18 Berger Avenue, Markham PLAN 65M3976 LOT 99

The applicant is requesting relief from the requirements of By-law 177-96 as amended to permit:

a) By-law 177-96, Section 6.5:
 a second dwelling unit, whereas the By-law permits no more than one dwelling unit on a lot;

b) By-law 177-96, Section 5.1, Table B2(e): a minimum interior side yard setback of 0.36 m, whereas the By-law requires a minimum interior side yard setback of 1.2 m;

as it relates to a proposed secondary suite (basement apartment). (East District, Ward 7)

The Secretary-Treasurer introduced the application.

The agent Kyle Khadra appeared on behalf of the application. He notes the drawings in the staff report do not show the landing.

Committee member Tom Gutfreund asked if the basement apartment is finished. He also inquired about the games room in the house and if the owner is residing in the house.

Mr. Khadra responded the games room is for the owner's family use and the owner will be residing here.
