

Use candles with care

**When you
go out...
blow them
out!**

- Never leave a burning candle unattended
- Keep candles out of the reach of children
- Never burn candles on or near anything that might catch fire
- Never touch or move a lit candle
- Keep candles in a sturdy holder and on a level surface
- Consider using a battery operated flameless candle
- Always use a flashlight, not a candle, for emergency lighting
- Be careful not to splatter hot wax when putting out a candle
